Project Overview

Project Name: Health Facility new Highland Ave

Project Identification Number	19
Project Expenditure Category	1-Public Health
Project Expenditure Subcategory	1.7-Capital Investments or Physical Plant Changes to Public Facilities that respond to the COVID-19 public health emergency
Total Obligations	\$750,000.00
Total Expenditures	\$0.00
Project Description	<p>The City of Bridgeport has determined that the planned relocation / upgrade of the city's East Side Health Center will materially assist in addressing the negative consequences of the Covid-19 pandemic in the city, by addressing vital health care needs of our citizenry in a new state-of-the-art health care facility. Covid-19 adversely impacted the city's ability to directly provide health care, counselling, and other assistance to its residents. This reduced delivery of health-care services is both a consequence of limited local resources necessarily being diverted to directly combat the Covid-19 pandemic and a result of the operational burdens created by the need to protect as best as reasonably possible our health care providers and clients from contracting this highly contagious disease. Lower income city residents who are at the greatest risk for Covid-19 due to population density, elevated levels of pre-existing recognized Covid-19 co-morbidities and long-standing reduced access to quality health care due to their disadvantaged economic status and the effects of systemic racism have a desperate need for Covid-19 testing / treatment, in addition to having their other physical and mental health-care needs timely met. A rehabilitated East Side Health Center will go a long way to address the health-care needs of the city's economically disadvantaged and ethnically/racially diverse urban community, with its high migrant and non-English speaking population. The newly relocated East Side Health Center Rehabilitation will provide the city and its high service needs health care client population with a highly accessible "welcoming to all" and fully functional state-of-the-art public health service facility located in geographic proximity to its service recipients. Moreover, as a direct consequence of the facility rehabilitation, this service provider will be able to offer and reliably deliver life-saving and other essential medical treatments, even despite the operational challenges imposed by the Covid-19 pandemic. Unfortunately, due to their financial and environmental circumstances, Bridgeport residents experience, unhealthy diets, obesity, asthma, vitamin deficiencies, and untreated major illnesses. One of the most effective means to address the Covid-19 health crisis is through direct targeted governmental action, in this instance either via city staff and resources or engagement of competitively procured third-party services. This government response will directly improve the health</p>

	<p>and welfare of a vulnerable population of Bridgeport residents. The most efficient means to address the Covid-19 induced health crisis is through concerted government action. This project will directly improve the health and quality of life for Bridgeport health-care clients; and will indirectly materially benefit the wider population by facilitating treated patients' ability to provide for their families and other dependents once their own basic health-care needs are addressed by health-care professionals at a conveniently located safe and accessible site. Thus, this project will have both an immediate positive impact on Covid-19 local response. Project scope is site work which involves a new parking lot, new drainage, new exterior lighting, retaining walls and landscaping, and a new roof and repointing exterior masonry. The interior consists of a new elevator, new bathrooms, renovating the basement area with offices, break room, community computer room and entertainment area for the Veteran affairs department. The second floor will be new offices, reception/ waiting area, break rooms and health clinic exam rooms, storage areas with IT and security upgrades.</p>

Project Identification Number	17b
Project Expenditure Category	1-Public Health
Project Expenditure Subcategory	1.10-Mental Health Services
Total Obligations	\$100,000.00
Total Expenditures	\$50,000.00

Project Description	<p>The city of Bridgeport has determined that a Mental Health ARPA funded program will help address the adverse consequences and impacts of the Covid-19 pandemic in the city and address vital needs of our citizens and the community of Bridgeport. The goal of this program is to address the economic impacts of COVID-19 through programs and services to support individuals affected by mental health issues and their families. The COVID-19 pandemic and the subsequent economic recession have adversely impacted mental health and created new barriers for people already suffering from mental health illnesses. Residents experienced far greater rates of fear, anxiety, stress and trauma. For many, the pandemic also resulted in loss of employment and even housing. This placed a special burden on mental health services.</p> <p>These programs and services were bid and community based organizations chosen for ARPA funding are offering intensive counseling and support services to individuals and families afflicted with mental health issues, which help those in the Bridgeport community facing such issues to live better lives. Some community-based programs had reduced services due to the pandemic's impact and this program is helping to redress such issues. The focus for this program is on expanding the ability to provide safe, needed and prompt access to mental health care where patients can see a provider in person or via telehealth as the public health crisis continues. This program will also help patients manage their conditions as they can flourish in work, school, life, long term and have a positive impact on the economy.</p>

Project Expenditure Category	5-Infrastructure
Project Expenditure Subcategory	5.1-Clean Water: Centralized wastewater treatment
Total Obligations	\$1,000,000.00
Total Expenditures	\$0.00
	The City of Bridgeport has determined that the planned rebuild of the Bridgeport Water Pollution Control Authority's West Side Wastewater Treatment Plant will materially assist in addressing the negative consequences of the Covid-19 pandemic in the city by addressing clean water pollution and sewer runoff impacts on neighborhoods. This

Project Description	<p>project will reduce dirty water runoff long term to protect residents long term health. A rehabilitated West Side Wastewater Treatment Plant will go a long way to address the health-care needs of the City's economically disadvantaged and ethnically/racially diverse urban community.</p> <p>This service facility is located in geographic proximity to its service recipients. Moreover, as a direct consequence of the facility rehabilitation, Bridgeport residents who experience elevated levels of recognized Covid-19 co-morbidities, such as asthma, vitamin deficiencies will have cleaner sanitary facilities equipped to deal with stormwater runoff and waste that leaches into the groundwater and into Long Island Sound. This government response will directly improve the health and welfare of a vulnerable population of Bridgeport residents and meet all DEEP and federal clean water regulations and requirements.</p>

Project Name: WPCA Wastewater Treatment Plant Rebuild

Project Identification Number	22
Project Expenditure Category	5-Infrastructure
Project Expenditure Subcategory	5.1-Clean Water: Centralized wastewater treatment
Total Obligations	\$4,000,000.00
Total Expenditures	\$0.00
Project Description	<p>The City of Bridgeport has determined that the planned rebuild of the Bridgeport Water Pollution Control Authority's West Side Wastewater Treatment Plant will materially assist in addressing the negative consequences of the Covid-19 pandemic in the city, by addressing vital health needs of our citizenry and city. Covid-19 adversely impacted the city's ability to directly protect the environment. This reduced delivery of effective wastewater treatment services is both a consequence of limited local resources and a result of the operational burdens. Lower income City residents are at the greatest risk for Covid-19 due to population density, pre-existing recognized Covid-19 co-morbidities and long-standing impacts from localized flooding of dirty water. A rehabilitated West Side Wastewater Treatment Plant will go a long way to address environmental and health needs of the City's economically disadvantaged and ethnically/racially diverse urban community.</p> <p>This West Side sewer plant rebuild will provide the city a much higher service fully functional state-of-the-art facility located in geographic proximity to its service recipients. Moreover, as a direct consequence of the facility rebuild, reduced water pollution into local neighborhoods and into Long Island Sound will create life-saving healthy living improvements. Bridgeport residents experience a severely elevated level of recognized Covid-19 co-morbidities, including asthma, vitamin deficiencies, and untreated major illnesses. Cleaner water and wastewater runoff will improve public health. This government response will directly improve the health and welfare of a vulnerable population of Bridgeport residents.</p>

Project Name: River Waterways Pollution and Stormwater Clean Up

Project Identification Number	21
Project Expenditure Category	5-Infrastructure
Project Expenditure Subcategory	5.6-Clean Water: Stormwater
Total Obligations	\$750,000.00
Total Expenditures	\$0.00
Project Description	<p>The City of Bridgeport has determined that a Waterway River Pollution and Stormwater Clean Up Program within the community will help address the adverse negative consequences and impacts of the COVID-19 pandemic in the City and address the vital needs of our citizens and the community of Bridgeport. This Waterways Clean Up program will help protect families, children, and seniors living in low and moderate income neighborhoods by protecting their homes from floods, and avoid mold and other health hazards resulting from stormwater runoff. This program is being conducted in conjunction with surrounding towns, who have also determined to use ARPA funds, in order to hire contractors to clear waterways and build stormwater prevention detention basins along riverways. This programs will help reduce flood damage and leaks in homes, reduce mold and other environmental health exposures. It is very important that the City addresses the adverse economic impact of the COVID-19 Pandemic by improving the quality of life in homes for the citizens within our community. Water pollution reduction remains a top priority of the City.</p>

Project Name: Bridgeport Revenue Lost Budget Health and Public Safety Program

Project Identification Number	23
Project Expenditure Category	6-Revenue Replacement
Project Expenditure Subcategory	6.1-Provision of Government Services
Total Obligations	\$5,000,000.00
Total Expenditures	\$5,000,000.00
Project Description	<p>The City of Bridgeport has determined that a Revenue Loss Budget Health and Public Safety Program for the community will help address the adverse negative consequences and impacts of the COVID-19 pandemic on the City and address the vital health and safety needs of our citizens and the community of Bridgeport. This program helps families, children, and seniors living in low and moderate income neighborhoods by funding necessary health programs and public safety programs to protect citizens, homes, and other hazards within the Bridgeport community.</p> <p>This program helps the City to manage delivering services to residents at risk and to disadvantaged neighborhoods throughout the city. It is very important that the City addresses the adverse economic impact of the COVID-19 Pandemic by improving the quality of life in homes for the citizens within our community.</p>

Project Name: ARPA Administrative Implementation Program

Project Identification Number	24
Project Expenditure Category	7-Administrative and Other
Project Expenditure Subcategory	7.1-Administrative Expenses
Total Obligations	\$200,000.00
Total Expenditures	\$50,258.13
Project Description	<p>The Bridgeport ARPA Administrative Services program helps address the adverse negative consequences and impacts of the COVID-19 pandemic in the City and address the vital needs of our citizens and the community of Bridgeport by affording the City the Administrative resources to implement the almost thirty APRA SLFRF programs that the City has approved. It is very important that the City addresses the adverse economic impact of the COVID-19 Pandemic by delivering on the promised of ARPA to improve the quality of life for the citizens within our community. All administrative costs being expended by the City are supplemental to the existing City budget, and include one new hire administrative coordinator to implement programs, and one part time clerk to process purchases and payments. The City has separately contributed in kind staff services already in the City budget which the City will NOT reimburse through the use of ARPA funding.</p>

Description	The City of Bridgeport has determined that Addiction Services will address the negative consequences and adverse impacts of the COVID-19 on many of its citizens. Due to the pandemic, many individuals do not have access to treatments to aid with their addictions. The Addiction Services ARPA program is geared towards helping individuals getting on track with reducing and preventing alcohol addiction, drug

	addiction and other forms of mental health illness, aimed at gaining individual resiliency and responsibility to prevent further usage of substances and to reduce the risk of suicide and other negative outcomes. The focus of these programs ranges from recovery and relapse prevention, life skills development and spiritual formation.

Description	The City of Bridgeport has determined that a Small Business Expansion Grant program will help address the adverse consequences and impacts of the Covid-19 pandemic on small businesses located within the city, which as a result address also assists in the vital needs of our citizens to have goods and services available for the community of Bridgeport. Small businesses were heavily impacted by Covid-19, experiencing a drastic downturn in revenues and additional costs for PPE, outfitting, and other expenses. In socio-economically disadvantaged communities like Bridgeport, small businesses did not have the means to sustain or expand and improve their businesses. The Covid-19 pandemic caused an inability to attract and retain customers.

Description	The City of Bridgeport has determined that Workforce Training development programs will address some of the negative consequences and adverse impact of the COVID-19 on its citizens. Due to the pandemic, employers were force to terminate many of their employees and often must close their businesses. Many citizens were left without a job and are having difficulties getting back into the workforce. With these programs the citizens of Bridgeport will have access to many resources that will aid with their job search and qualifications. The Workforce Training development program contracts with bonafide Bridgeport based non-profit organizations to implement initiatives including, but not limited to, providing access to job training and education,
